REFUSAL OF CONSENT TO DISPLAY OF ADVERTISEMENTS

To:—

Mrs. H.J.F.Fanning,
The Cup House,

Glos.

In pursuance of their powers under the above-mentioned Act and Regulations, the Council as Local Planning Authority hereby REFUSE TO GRANT CONSENT to the display of the advertisement described hereunder:—

Description of Site	Description of Advertisement
Cheltenham Road, Painswick, Glos. Painswick Parish. Stroud R.D.C.	The erection of an advertising and directional sign in a private garden adjoining the main road and parking space. Size of sign 28" x 21". Heig from ground to top of sign 8'8" exhibited on an upright stay. 2" x 3" letters. Black and white. Lettered "Home Made Teas, Ices and Coffee. The Cup House. First turning left-Bisley Street".

THE REASONS FOR THE COUNCIL'S DECISION TO REFUSE CONSENT ARE:—

The presence of a directional sign of this nature so close to a bend and the cross roads would distract motorists attention at a point where they should be concentrating on the road ahead-consequently the Ministry of Transport advise that the advertisement constitutes a sign which would resemble a traffic sign and should not therefore be permitted on road safety grounds-furthermore the advertisement is intended to attract attention along a length of Trunk road which affords a tourist route and access to Painswick of high amenity value which it is intended to preserve and from the beauties of which the advertisement would detract.

REFUSAL OF CONSENT TO DISPLAY OF ADVERTISEMENTS

To:—

Mrs. E.M. Bown,
The Gables Guest House,
Tiltups End,
Horsley,
Glos.

In pursuance of their powers under the above-mentioned Act and Regulations, the Council as Local Planning Authority hereby REFUSE TO GRANT CONSENT to the display of the advertisement described hereunder:—

Description of Site	Description of Advertisement
The land on which this sign is erected is about mid-way between Barton End and Haviewood and is opposite the Laurel Cottage on the A.46 Trunk road Cheltenham-Bath. O.S. Glos:LVII.3. P/Parcel No.356. 1922 Edition. Horsley Parish. Stroud R.D.C.	The erection of a directional sign adjoining the Trunk road, not on the applicant's land and lettered "The Gables Guest House. Teas and Refreshments. Half a mile ahead". Size of sign 4'3" x 1'10". Height from ground level to top of advert 8'10". Size of letters 4½".

THE REASONS FOR THE COUNCIL'S DECISION TO REFUSE CONSENT ARE:—

(a) The premises are easy to find and visible from the main road, consequently there appears to be no justification for a sign which could only be permitted in an area of special control under Article 11(2)(b) of the Advertisement Regulations.

(b) The siting of the sign on a section of road which comprises a succession of bends and which falls rapidly towards Nailsworth is likely to create dangerous traffic conditions by diverting drivers' attention from the road.

Dated 8th day of August 1951.

GUY H. DAVIS,
Clerk of the County Council.

Notes:—

1. If the applicant is aggrieved by the decision of the Local Planning Authority to refuse consent for the proposed advertisements, or to grant consent subject to conditions, he may by notice served within one month of receipt of this notice or such longer period as the Minister may allow, appeal to the Minister of Town and Country Planning in accordance with Regulation 20 of the Town and Country Planning (Control of Advertisements) Regulations, 1948. The appropriate form should be obtained from: The Regional Controller, Ministry of Town and Country Planning, 3, Woodland Road, Bristol 8. The Minister is not, however, required to entertain such an appeal if it appears to him that having regard to the provisions of these Regulations, consent to the display of advertisements in respect of which application was made could not have been granted by the Local Planning Authority, or could not have been granted otherwise than subject to the conditions imposed by them.

GLOUCESTERSHIRE COUNTY COUNCIL

TOWN AND COUNTRY PLANNING ACT, 1947

Town and Country Planning (Control of Advertisements) Regulations, 1948

REFUSAL OF CONSENT TO DISPLAY OF ADVERTISEMENTS

To:— Messrs. Gardiner Bros.,
The Garage,
Cambridge,
Glos.

In pursuance of their powers under the above-mentioned Act and Regulations, the Council as Local Planning Authority hereby REFUSE TO GRANT CONSENT to the display of the advertisement described hereunder:—

Description of Site	Description of Advertisement
The Garage, A.38 Trunk Road, Cambridge. O.S. Glos. 48.3. 1922 Edn. P/Parcel No. 508. Coaley Parish. Dursley R.D.	Display of advertisement sign on concrete post. Overall size of sign 5'0" x 2'10". Height from ground level to top of proposed sign 13'0"

THE REASONS FOR THE COUNCIL'S DECISION TO REFUSE CONSENT ARE:—

One forecourt sign related to the principal commodity sold (i.e. petrol) is adequate to identify this garage and further free standing signs will merely make the garage more conspicuous and thus intrude unnecessarily into the street scene and so injure rural amenities.

Dated 3rd day of October, 195 7.

GUY H. DAVIS
Clerk of the County Council.

Notes:—

1. If the applicant is aggrieved by the decision of the Local Planning Authority to refuse consent for the proposed advertisements, or to grant consent subject to conditions, he may by notice served within one month of receipt of this notice or such longer period as the Minister may allow, appeal to the Minister of Local Government and Planning in accordance with Regulation 20 of the Town and Country Planning (Control of Advertisements) Regulations, 1948. TOWN AND COUNTRY PLANNING (CONTROL OF ADVERTISEMENTS) REGULATIONS 1992
APPEAL: OLYMPIC CARS, THE WHARF, DUDBRIDGE, STROUD, GLOUCESTERSHIRE
APPLICATION NO: S.ADV/84/A

1. I am directed by the Secretary of State for the Environment to refer to the appeal of your clients, Peugeot Talbot Motor Co Ltd, against Stroud District Council's refusal to permit the display, at the above-mentioned site, of

(a) an internally illuminated fascia sign measuring 18.03m x 910mm;

(b) an internally illuminated, pole-mounted, box sign measuring 950mm² with an overall height of 4.575m;

(c) a non-illuminated gantry sign measuring 5335mm x 610mm with an overall height of 2500mm; and

(d) an 8m flagpole flying a Peugeot Lion Logo flag measuring 2.6m x 1.3m.

The Secretary of State's decision has been made on the basis of the written representations and the submitted photographs and an officer of the Department has inspected the site.

2. The general description of the appeal site and its surroundings, set out in the Council's statement attached to their letter dated 5 February 1993, is accepted.

100%

3. The premises contain a single storey gable roofed showroom building, with cladding across the gable, fronted by a forecourt on which used cars are displayed for sale, and additional buildings to the rear. The forecourt area is bounded to the north by a fence and along part of the frontage by a high brick wall, the rest of the frontage being open to the road to provide vehicular access. The fascia sign, which is already in position, extends across the whole width of the showroom. It contains white and blue lettering on dark blue background panel which is internally illuminated behind the lettering only. The pole mounted box sign and flagpole, which are not displayed, would be positioned along the frontage behind and at either ends of the frontage wall. The gantry sign would be positioned alongside the fencing at the north end of the forecourt.

4. It is noted that, on the basis that the flag would contain a similar logo to those currently displayed, the Council have no objection to its proposed display and the Secretary of State sees no reason to disagree with that view. It is therefore concluded that this particular advertisement would not be detrimental to the interests of amenity.

5. The site is in the Stroud Industrial Heritage Conservation Area where it is necessary to pay special attention to the desirability of preserving or enhancing its character and appearance. Whilst this designation does not necessarily preclude the display of well-sited illuminated signs of suitable size and design, particularly on commercial premises in mainly commercial areas, it is to be expected that it will result in a strict control being maintained to ensure that outdoor advertisements do not spoil the appearance of the area.

6. As regards the fascia sign, although constructed of somewhat reflective perspex-type material, it is positioned neatly across the frontage of a modern showroom building, well back from, and approximately parallel to, the road, where its impact is largely confined to direct views from the frontage and its immediate vicinity to the south of the site. Whilst the sign contains internal illumination, this is confined to that part of the sign containing lettering only and does not extend across the full width of the sign. In all these circumstances, it is considered that the sign does not stand out with undue conspicuousness on the frontage or within the surrounding area generally.

7. As regards the proposed gantry sign, whilst this would not be illuminated, it would be comparatively large and would be sited forward of the showroom in a prominent, right-angled position to the road, projecting well above the level of the adjoining fence and presenting its rear elevation to views from the adjacent canal. In these circumstances it is considered that this sign would stand out with undue conspicuousness on the site and within its surroundings generally.

8. Finally, the pole sign, although of relatively modest proportions, would closely adjoin the frontage wall and footpath where, because of its exposed position to the road, accentuated by its illumination in an area where, despite the mainly commercial nature of the surroundings, the absence of any other illuminated signage on the frontages of other premises gives the area a noticeably more restrained appearance than many commercial settings, and because of its display in association with two existing flagpoles on the forecourt and the flagpole and flag which it is proposed to display at the other end of the frontage wall, it is considered that it would appear intrusive, particularly when viewed from the south in the foreground of the rising tree covered land to the north of the canal, and that its presence would give rise to an excessive display of advertisements on the site.

9. The Council's adopted policy guidelines contained in their document entitled "Shop Fronts and Advertisements - A guide to design policies" have been carefully considered, in the light of the requirement, in Regulation 4(1), that they shall exercise their powers only in the interests of "amenity" and, where applicable, "public safety" taking account of any material factors. It is particularly noted that, in the Council's view, the fascia sign would conflict with these policies because it would contain internal illumination and would not be constructed from traditional materials. It is considered that the application of these policies to the appeal premises is too restrictive in that it precludes other types of advertisement being considered on their own merits as required by the Regulations. In this case, because this particular advertisement is thought, for the reasons given above, to be acceptable in relation to the appeal site and its surroundings, on grounds of visual amenity, it is considered that its display should be permitted at variance with the Council's policy.

10. In all these circumstances, therefore, it is concluded that the display of the fascia sign would not be incompatible with the conservation status of the area or detrimental to the interests of amenity, but that the display of the proposed pole-mounted box sign and the gantry sign would be incompatible with the said conservation status and detrimental to the interests of amenity.

11. Accordingly, the Secretary of State dismisses that part of the appeal relating to the pole-mounted box sign and the gantry sign but allows the appeal in respect of the fascia sign and the 8m flagpole and flag display and grants consent for the display for 5 years from the date of this letter of these two advertisements, as applied for.

12. This letter does not purport to convey any approval or consent which may be required under any enactment, byelaw, order or regulation other than Regulation 5 of the Regulations.

Your obedient Servant

1(*a*). Where, on application being made for consent under the Town and Country Planning (Control of Advertisements) Regulations, 1960, consent is refused by the local planning authority or is granted by them subject to conditions, the applicant may appeal to the Minister:

Provided that the Minister shall not be required to entertain an appeal under Regulation 20 if it appears to him, having regard to the provisions of the aforesaid Regulations, that consent for the display of advertisements in respect of which application was made could not have been granted by the local planning authority, or could not have been granted otherwise than subject to the conditions imposed by them. Where a requirement of the discontinuance of the display to which this notice relates has been included therein pursuant to regulations 8 and 17 (4) the requirement shall take effect, if an appeal is made under regulation 20, only if consent is refused by the Minister and then at the expiration of 28 days from the notification of the Minister's decision.

1(*b*). Any person who desires to appeal under Regulation 20 of the Town and Country Planning (Control of Advertisements) Regulations, 1960, shall give notice of appeal in writing to the Minister within one month from the receipt of notification of the local planning authority's decision, or such longer period as the Minister may allow, and shall furnish to the Minister a copy of the following documents :—

(i) the application made to the local planning authority;

(ii) all relevant plans and particulars submitted to them;

(iii) the notice of the decision, if any;

(iv) all other relevant correspondence with the authority.

1(*c*). The Minister may, if he thinks fit, require the applicant or the local planning authority to submit within a specified period a further statement in writing in respect of any of the matters to which the appeal relates, and if, after considering the grounds of the appeal and any such further statement, the Minister is satisfied that he is sufficiently informed for the purpose of reaching a decision as to the matters to which the appeal relates, he may decide the appeal without further investigation; but otherwise the Minister shall, if either party so desire, afford to each of them an opportunity of appearing before and being heard by a person appointed by the Minister for the purpose.

1(*d*). Where an appeal is brought under the aforesaid Regulation from a decision of the local planning authority the Minister may allow or dismiss the appeal or may reverse or vary any part of the decision of the local planning authority, whether or not the appeal relates to that part, and deal with the application as if it had been made to him in the first instance.

1(*e*). The decision of the Minister on an appeal under the above-mentioned Regulation shall be final.

2(*a*). Any person who is required under the Town and Country Planning (Control of Advertisements) Regulations, 1960, to remove an existing advertisement which was also being displayed on the seventh day of January, 1947, or to discontinue the use for the display of advertisements of any site being used for that purpose on the 1st August, 1948, and who desires to claim compensation under Section 126 of the Town and Country Planning Act, 1962, in respect of any expenses reasonably incurred by him in carrying out works in compliance with such a requirement, shall submit a claim in writing to the local planning authority within six months after the completion of such works; and such a claim shall contain sufficient information to enable the local planning authority to give proper consideration thereto, including, in the case of a claim in respect of the removal of an advertisement which was being displayed on the seventh day of January, 1947, and on the 1st August, 1948, a statement that such advertisement was being displayed on both those dates.

3. Save only as excepted by the Regulations, it shall be a condition of every consent given by or under the Town and Country Planning (Control of Advertisements) Regulations, 1960 (whether expressly imposed or not) that before any advertisement is displayed on land in pursuance of the consent the permission of the owner of that land or other person entitled to grant permission in relation thereto shall be obtained.

4(*a*). The amount of the fine to which a person who displays an advertisement in contravention of the Town and Country Planning (Control of Advertisements) Regulations, 1960, is liable on summary conviction under subsection (2) of Section 63 of the Town and Country Planning Act, 1962, is fifty pounds and, in the case of a continuing offence, forty shillings for each day during which the offence continues after conviction.

4(*b*). Failure to observe any condition relating to the maintenance of an advertisement or of the site used for the display thereof, or to the satisfactory removal of an advertisement, shall not be a contravention of the aforesaid Regulations for the purpose of subsection (2) of Section 63 of the Act in so far as concerns any person who is only deemed, by virtue of subsection (3) of that Section to display such advertisement, unless within the time allowed for complying with an enforcement notice served on such person under Regulation 23 of the aforementioned Regulations steps required by the notice to be taken to remedy such failure are not taken.

Description of Advertisement

Erection of fascia sign and window sign (static illuminated).

The reasons for the Council's decision to refuse consent are :-

In the opinion of the Local Planning Authority the proposed sign, by reason of the materials and means of illumination to be used, would detract from the architectural and historic character of the Listed Building on which it is proposed to be displayed, would be unduly intrusive in the street picture and detrimental to the visual amenities of this part of the Conservation Area.

N.B. With effect from 7th April, 1986 new procedures became effective when lodging an appeal. In addition to the procedures referred to overleaf a copy of any appeal must also be sent to the Council's Solicitor, Council Offices, Ebley Mill, Westward Road, Ebley, Stroud, Glos. GL5 4UQ

Description of Advertisement

Display of an internally illuminated box sign:
Overall size of sign:9.14m x 0.61m. Height
from ground level to top of sign 3.81m.
Size of symbols:0.61m.

The reasons for the Council's decision to refuse consent are :-

In the opinion of the Local Planning Authority the location of the building is sufficiently advertised by the existing sign on the western elevation. The display of the illuminated sign would therefore be detrimental to visual amenity and also be a source of distraction to drivers of vehicles using the A.419 in an easterly direction.

Description of Advertisement

Display Of An Internally Illuminated Fascia Sign and
An Internally Illuminated Projecting Sign

The reasons for the Council's decision to refuse consent are:-

Notwithstanding the presence of internally illuminated signage on this building, the proposed signs would detract from the character and appearance of the Listed Building, by virtue of increased size, extent across the building, materials and method of illumination.
