

**Are you a  
business based  
in the Stroud  
District?**

**Are your energy  
costs spiralling  
out of control?**

**This is an opportunity for you  
to reduce the amount of energy  
waste where you work.**

**Severn Wye Energy Agency can help  
reduce your energy consumption  
and costs with an energy audit  
of your business. Stroud District  
Council will cover 50%\* of the cost  
of the service – meaning the total  
cost is £375.**

Businesses to date have on average had 30% savings on energy consumption and cost identified through receiving this service. A whole range of no and low cost measures

can be simply and effectively introduced to make a real difference to your bills and the savings could quickly recoup the cost of the service and continue to save you money for many years thereafter!

If you own a business in the Stroud District, or work in a business that you think could improve its energy performance then there is help to identify and implement energy saving measures.

\*This service is available for businesses with an annual energy spend of up to £100,000. For larger businesses there is a separate service available.

## In partnership with Stroud District Council, the independent charity Severn Wye Energy Agency is offering the following service:

1. Analysis of your energy bills and seasonal consumption patterns
2. Site visit and detailed energy survey of your premises, heating, lighting and equipment
3. Bespoke report presented to you in person, including a simple structured action plan
4. Follow-up telephone support and resources to help you implement the recommendations

We have already helped more than 200 businesses throughout Gloucestershire to realise significant reductions in their energy costs. Here is what previous clients had to say on the service:

**“The survey really helped us to see where we could save energy, and identified some savings we would never have found out about.”**

*Sian Williams, of Ruskin Mill Educational Trust in Nailsworth*

**“Thanks to the energy survey from Severn Wye Energy Agency we have made considerable savings and improved our businesses efficiency. I don’t know why more small businesses don’t take advantage of such a great service.”**

*Alex Heslop, proprietor of Bentleys bar in Cheltenham*
