Details of Complaint

Name		Type: Stray Dogs
Trading As		Sunday 14th November a group of runners whom I was with came out of Randwick woods and down OckerHill using the public footpath in the field. A young black dog labrador cross which had 1 white paw followed us all the way down to the bottom of Randwick. Very friendly dog but no owner in sight. We caught the dog and phoned the number on the tag [REDACTED] name of [REDACTED] was also on the tag. The owners son came out and collected the dog. The owner was not aware that the dog had even got out. Good job we had a phone with us or the dog could have followed us all the way back to Stroud. Just wanted this noted as perhaps the owner needs to check the property so that the dog cannot get out as he may follow other people on the footpath. The dog was very friendly and thought he was coming running with us.
