

What will the cost, turnaround and request and delivery methods for the following data?:	Cost		Turnaround	Request Method	Delivery Method
	Residential	Commercial			
<b>Official Search (LLC1 &amp; CON29)</b>	£119	£119	Fluctuates but currently below 10 working days	post/email/NLIS	post or email or occasionally fax
<b>LLC1 Only</b>	£25	£25	Fluctuates but currently below 10 working days	post/email/NLIS	post or email or occasionally fax
<b>CON29 only</b>	£94	£94	Fluctuates but currently below 10 working days	post/email/NLIS	post or email or occasionally fax
<b>Copy of Planning documents</b> (please specify if cost is per document or per sheet)					
					<a href="http://www.stroud.gov.uk/docs/planning/planning_application_search.asp">http://www.stroud.gov.uk/docs/planning/planning_application_search.asp</a>
<b>Copy of Building Regulations documents</b> (please specify if cost is per document or per sheet)					
					<a href="http://www.stroud.gov.uk/info/planning/building_control_charges_2011_jan.pdf">http://www.stroud.gov.uk/info/planning/building_control_charges_2011_jan.pdf</a>
Do you believe any data used to compile a CON29 and LLC1 is NOT <b>Environmental Information</b> as described by the Environmental Information regulations 2004?	There is recent case law that does indeed seem to specify data used in the CON29 is environmental as described in the Act, however at present we are not aware of any such precedent for LLC1 data.				
Will the council be 'adding value' e.g. by partially refining data, bundling data sets, supplying data electronically, or offering an expedited service?	We are making more of our "un-refined" data available on-line to enable self service however this is at present work in progress.
