			save that the phasing set out in paragraph 5.9.5b should reflect my conclusion that the development will make its material start in the final phase of this plan period.		<p>However, in addition account has been taken of the more advanced stage of the Gloucestershire Structure Plan, 3rd Alteration and modifications are proposed to be in conformity with the strategic guidance that proposes that delivery of 500 dwellings is appropriate at Hunts Grove for this Plan period, the remainder being delivered 2011-2016.</p> <p>Whilst there has been progress on the construction of the Gloucester South West Bypass, at the time of writing the financing of the final section and the contract for its construction has yet to be finalised. Whilst it is anticipated that the position should be resolved in the next two months, it is necessary to cover the possible need for further funding from the Hunts Grove development.</p> <p>The County Council have also advised that Hunts Grove dwellings should not be occupied before completion of the Bypass and that funding may be necessary in any case depending upon the results of the Transport Assessment. It is possible that the current design capacity of the Bypass may not provide sufficient capacity to deal with traffic generated from Hunts Grove. These positions are also covered by modifications to the policy and text.</p>

	226	5.53	Policy H2 – Site Hg15 Modify the Plan by reinstating housing allocation Hg15 – Land at Horsemarling Farm, Standish under Proposal H2, with its supporting text, as set out on pages 3 and 4 of the Council's response proof H2(Hg15)/KD/11.	Reinstate the allocation	Disagree with the reasoning and conclusions of the Inspector at paragraph 5.53 of his report The updated housing land supply position at 1 April 2005 has demonstrated that if all the Inspector's recommendations for housing allocations were accepted, then the Plan would make a significant over-provision of housing up to 2011. There is therefore no need to allocate all sites recommended by the Inspector. Following consideration of the sequential search approach as agreed by the Inspector and taking into account sustainable development issues the Council has resolved not to allocate 25 dwellings at Horsemarling Farm, Stonehouse.

	298	5.99	Policy H2 – OMISSION SITE OS038 Modify the Plan by including this omission site as an allocation with an indicative capacity of 50 dwellings. Include within Table 5.5.	Do not include new allocation	Disagree with the reasoning and conclusions of the Inspector at paragraph 5.99 of his report. The updated housing land supply position at 1 April 2005 has demonstrated that if all the Inspector's recommendations for housing allocations were accepted, then the Plan would make a significant over-provision of housing up to 2011. There is therefore no need to allocate all sites recommended by the Inspector. Following consideration of the sequential search approach as agreed by the Inspector and taking into account sustainable development issues the Council has resolved not to allocate 50 dwellings

Include in Table 5.5	Do not include new allocation	Disagree with the reasoning and conclusions of the Inspector at paragraph 5.149 of his report. The updated housing land supply position at 1 April 2005 has demonstrated that if all the Inspector's recommendations for housing allocations were accepted, then the Plan would make a significant over-provision of housing up to 2011. There is therefore no need to allocate all sites recommended by the Inspector. 					not therefore considered it. A planning permission is currently being implemented and whilst the site is nearly complete at the time of writing it does not yet feature as a totally complete site as at 31 March 2004. Therefore it still needs to be recorded as an allocation and as such is recommended for reinstatement.
M/05/56/T			Policy H2, site Hg 6	Reinstate the supporting text to the allocation	See reasoning in relation to M/05/56/P above.
M/05/57/T			Affordable housing text relating to the following allocations under Policy H2: Hg4; Hg5; Hg5A; Hg7; Hg8; Hg12; Hg13; Hg15A; Hg19; Hg21; Hg22; Hg23; Hg27.	Delete text relating to affordable housing from allocations made under policy H2	<p>The deletion of text relating to affordable housing requirements on individual sites was put forward in the Proposed Changes, June 2001. This was as a consequence in the way that affordable housing was proposed to be dealt with in the Local Plan. The Inspector has supported the Council's approach to affordable housing. However, as objections were not made to the supporting text on all individual allocations in respect of affordable housing provision the Inspector has not made recommendations relating to those parts. It is therefore necessary to provide consistency in the Plan by deleting the supporting text on affordable housing to those allocations not covered by an Inspector recommendation. (The relevant Proposed Changes were PRO084, PRO087, PRO096, PRO097, PRO100, PRO101, PRO105, PRO109, PRO111, PRO114, PRO117 and PRO121.)</p> <p>In allocation Hg5A the text relating to affordable housing was worded to reflect the fact that it fell below the thresholds then in place. However, with revised thresholds all sites allocated now</p>
