

### Sites of Nature Conservation Interest

This Schedule lists all sites of Nature Conservation Interest defined by the Gloucestershire Wildlife Trust (GWT), nationally, at a European level, and internationally in the case of the Upper Severn Estuary Wetland of International Importance (Ramsar Site). The different designations can overlap as shown on the Proposals Maps. The sites are listed by parish. Many of the sites cross parish boundaries and in these cases all the parishes are listed, although the majority of the site may be in one parish alone. Generally the first parish listed for a site is where the majority of that site is located.

All watercourses are given protection in terms of nature conservation interest by virtue of Policy NC3 in the Built and Natural Environment chapter.

**Note** Abbreviations used:

- RAMSAR** Site designated under the RAMSAR Convention as Wetland of International Importance especially as waterfowl habitat.
- SPA** Special Protection Area designated under the EC Directive on the conservation of wild birds.
- NNR** National Nature Reserve designated under the National Parks and Access to the Countryside Act, 1949.
- SSSI** Site of Special Scientific Interest designated under the Wildlife and Countryside Act, 1981.

	<b>Site</b>	<b>Grid Ref.</b>	<b>Parish</b>	<b>Description</b>	<b>Statutory Designation</b>
1	Foxholes Wood	ST81903	Alderley, Hillesley and Tresham	Ancient Woodland	
2	Alderley Wood	ST782910	Alderley	Ancient Woodland
