

BERKELEY MARKET SQUARE CONSULTATION FEEDBACK FORM

A partnership group has been working toward the development of a concept to enhance the town centre of Berkeley. At the outset, please be aware that the concept has been checked by County Highways and they advise that all suggestions are feasible. We are seeking your input on the concept.

The aim of the project is to:

- **Reclaim** public space to more easily allow community events and to provide space, for instance, for café tables
- **Reconnect** the town centre by eliminating the feeling that it is bisected by the road and by providing a focal point
- **Engendering a feeling of safety** for pedestrians through the slowing of traffic and creating pedestrian crossing points
- **Create a destination of choice** for local people, visitors and businesses by creating an attractive and distinctive town centre, which the community would be proud of

Initially the community told us that:

1. Crossing the road was difficult and dangerous, particularly for the elderly and parents with children
2. There needed to be a better space for town centre events
3. Too many heavy vehicles came through town
4. Car parking spaces need to be better defined, but not reduced
5. The town centre needed to be made more attractive and greener

Please tell us which parts of the concept you like/ don't like by placing a ✓ and making comment:

EITHER

TOWN SQUARE

I like the whole concept

I don't like any part of the concept

SALTER STREET

I like the whole concept

I don't like any part of the concept

OR

TOWN SQUARE (note: variation to proposals shown in the concept will need to be retested through relevant legislation/ guidance eg Glos Highways Road Traffic Guidelines)

	I like this	I don't like this,	an improvement is to
Wider pavement	<input type="checkbox"/>	<input type="checkbox"/>
Layout of trees and landscaping	<input type="checkbox"/>	<input type="checkbox"/>
Design features around proposed statue including seating	<input type="checkbox"/>	<input type="checkbox"/>

	I like this	I don't like this,	an improvement is to
Crossing point (locality has been considered by Glos H'Ways)		
Large functional public square		
Bike racks		
Priority of road through to Slater Street and not Marybrook Street		
Location of disabled parking		

SALTER STREET

	I like this	I don't like this,	an improvement is to
More Parking		
Better defined kerb line		
Layout of trees and landscaping		
Location of disabled parking		

Please add any further comments in the box below:
