

## PETITIONS RECEIVED BY STROUD DISTRICT COUNCIL SINCE JANUARY 2017

<b>Petition Title</b>	Dursley PS29
<b>Petition Words</b>	<p>I am writing to object to the proposal for.....  I live at [REDACTED] and I will be directly affected by the proposal. My objection relates to several matters. Firstly there will be a huge increase in traffic on already congested B roads that carry through traffic including HGV. These roads are not designed for this level of traffic. No public transport is available to the town centre or the railway station. I was told residents from the development could walk to the town centre to access local facilities such as shops; doctor or dentist; but this assumes all residents in the proposed development are fit and active and able to carry shopping up steep hills. In addition air pollution around the proposed development due to vehicles will increase as well as parking problems not only on the proposed entry / exit points on Rosbury Road and surrounding roads but also to the already heavily congested school road. This is often blocked twice a day at school drop off and pick up times and there have been RTA between cars and pupils already. The area has not enough well paid employment to allow locals to buy from the development, so residents will need to commute from and to places of employment which will add to pollution not only in Dursley but also surrounding areas. The development offers no additional outdoors green space for recreation while taking away a lot of land in an outstanding natural area. This deprives locals and visitors who come to enjoy the walking and scenery. The development will have a negative visual impact from the Cotswold Way, a walk enjoyed by people from around the world, this will take money out of local small business due to the drop in visitors. Finally the last environment report was flawed and the findings widely disputed, a new proper independent report should be carried out in Spring as the proposed site is floodplain evidenced by houses on the old brickworks site near by have been flooded and are now unmortgageable. I am requesting that the development is rejected by planners.  We all live in Highfields.</p>
