**Subject:** Berkeley Town Council response to Local Plan Consultation  
**Categories:** Consultation response

Dear Sir

Berkeley Town Council feels that the consultation period was too short because it spanned the festive and new year period thus giving local councils less time to consider the review.

In 2017 the Sharpness/Berkeley area was considered to be an area with poor services yet in 2018 it is considered good even though there have been no changes in the interim period.  
We consider building a new town on our doorstep with its own shops and facilities could have a devastating affect on the businesses, facilities and community in Berkeley.

Berkeley Town Council is in favour of a dispersal approach to the planning strategy and would consider a small development within our town boundary

Best Regards
