

STROUD DISTRICT COUNCIL

AGENDA
ITEM NO

COUNCIL

18 JULY 2019

8ci

Report Title	UNITE CONSTRUCTION CHARTER
Purpose of Report	To report the recommendation of the Strategy & Resources Committee that the Council adopts the Charter.
Decision(s)	<p>It is RECOMMENDED that Council:</p> <p>(1) Adopts the Unite Construction Charter and (2) Requests the Leader to sign the Charter on behalf of the Council</p>
Consultation and Feedback	Not applicable.
Financial Implications and Risk Assessment	<p>It is possible that compliance with the charter may create additional costs for contractors, which in turn would be passed on the Council. This would not be possible to quantify as such costs would be included within quoted prices. This may, in turn, impact on the level of services the Council is able to provide.</p> <p>Andrew Cummings, Interim Director of Resources & S151 Officer Tel: 01453 754115 Email: andrew.cummings@stroud.gov.uk</p>
Legal Implications	<p>In order to comply with EU public procurement directives and domestic regulations the Council should ensure that the implementation of the principles in the Charter do not breach obligations to ensure non-discrimination, equal treatment and transparency when conducting procurements. Ability to comply with the Charter should not be used as a pass / fail criteria in the procurement process.</p> <p>The Charter should be considered as guidance of recommended practice only and should not be given the status of a rigid rule which could result in the Council being challenged for fettering its discretion.</p> <p>Patrick Arran, Interim Head of Legal Services & Monitoring Officer Tel: 01453 754369 Email: patrick.arran@stroud.gov.uk</p>
Report Author	Patrick Arran, Interim Head of Legal Services & Monitoring Officer Tel: 01453 754369 Email: patrick.arran@stroud.gov.uk
Options	The Council can adopt the Charter or decide not to do so
Performance Management Follow Up	If this Charter is adopted, it will form part of the Council's Procurement Strategy and would be monitored as part of that process

Background Papers/ Appendices	Report to Strategy and Resources Committee on the 11 th July 2019 There is no appendix
--	--

1. INTRODUCTION / BACKGROUND

On the 11th of July, the Strategy and Resources Committee considered a report in relation to the Construction Charter prepared by Unite the Union. The Committee resolved to recommend to Council that the Charter should be adopted and form part of the Procurement Strategy. The report to Strategy and Resources Committee forms part of the background papers for this report.

1.1 Council is asked to consider the recommendation from the Strategy and Resources Committee and decide whether it wishes to adopt the Charter which is set out below.

Unite the Union Construction Charter

As a Local Authority we are responsible for the procurement of a multitude of construction projects. It is therefore appropriate that we as a responsible client enter into this agreement and commit to working with the appropriate trade unions, in order to achieve the highest standards in respect of; direct employment status, health & Safety, standard of work, apprenticeship training and the implementation of appropriate nationally agreed terms and conditions of employment. The following shall be a requirement for all contractors and their supply chain engaged by this Authority: -

1. All parties recognise that the highest level of compliance with current HMRC regulations must be achieved where public funds are utilised. It is therefore a contractual requirement that all operatives are directly employed on a PAYE basis under a contract of employment. Furthermore the use of intermediary pay roll company will be prohibited on all contracts.

2. Health and Safety of workers on all of our construction projects is paramount. It is therefore a requirement that all contractors rigorously implement and adhere to our minimum standards for health and safety, as set out in our procurement documents. In addition we require all contractors to provide quality welfare facilities fit for purpose in accordance with the Construction Design and Management Regulation of 2015.

3. It is a recognised fact that the presence of trade union safety representatives significantly improves safety in the workplace. Contractors and their supply chain are required to work collaboratively with the appropriate trade unions to identify and implement reasonable real-world initiatives.

4. The Authority requires all projects to be completed to the highest standard, so as to meet the aspirations of the residents of this Authority. In order to achieve this it is recognised that it is necessary that all workers are competent and have the appropriate level of skill to carry out the work they are employed to do. To assist in the achievement of this goal the Authority's contractors and their supply chain will ensure they retain documented evidence that all workers are competent to carry out the work they have been employed to do. They will ensure that such evidence is retained in a way as to allow the Authority or its nominee's to audit the documentation. Possession of the recognised industry skills / grade card such as JIB or CSCS will be considered acceptable evidence

5. The Authority is mindful of the industry skills shortage and the need to address this through appropriate apprenticeships, including adult training in up skilling. The Authority's contractors and supply chain will in consultation with the Authority and other interested parties develop and implement a programme that addresses the skills shortage and provides training opportunities to local residents.
6. The Authority recognises the right of all construction workers to be employed under and to be protected by the appropriate national industry collective agreement. The Authority requires full compliance with all appropriate national agreements applicable to the construction industry.
7. All contractors and their supply chain will accept the right of any trade union that is a signatory to an appropriate national agreement, to appoint shop stewards, workplace health & safety representatives and Union Learning Reps. All trade union accredited representatives will be granted appropriate time and facilities to carry out their responsibilities.
8. The Authority, its contractors and their supply chain are committed to a fair and transparent recruitment policy. All contractors and their supply chain will actively ensure that the engagement of labour is based on the individual's ability to meet the needs of the project and the specific tasks for which they are recruited to undertake.
9. The Authority its contractors and their supply chain agree it's not acceptable for anyone to use or make reference to any form of blacklist.
10. The Authority recognises the benefit trade unions bring to the workplace and the rights of workers to hear from trade union representative. The Authority's contractors and their supply chain are required to allow access to nominated trade union officer from trade unions that are signatories to the appropriate national agreements. Access shall mean access to welfare facilities during working times so as to allow them to consult with their members and potential members.
11. The Authority supports the Get Britain Building campaign, which is aimed at supporting and sustaining the British construction industry. Consequently, all relevant construction contracts will be required to comply with our Authority's Sustainable Buying Standard for Highways and Construction Materials, which requires structural steel and other relevant materials to be covered by BES 6001 Responsible Sourcing of Construction Product certification, or equivalent.
