Hello

We have responded to the draft Local Plan but would like to add a note to show Rodborough Parish Council fully support SDC motion of Carbon Neutral 2030.

We have declared an emergency ourselves and have begun the process of forming a carbon neutral 2030 working group to get things moving.

Comments and suggested changes:	<p>Additional housing anywhere Minchinhampton or Rodborough Commons will result in an increase in traffic through Rodborough's narrow roads and increased danger to the grazing cattle.</p> <p>The Butts in particular is already a congestion point with very narrow roadway and pavement and this tends to be the primary route that drivers use to leave the Commons.</p> <p>There are already too many cattle deaths on the Commons each summer and an inevitable increase in the volume of traffic using the Commons will not help this.</p> <p>The council appreciate the need for additional housing but don't consider the Commons to be the place for it.</p>
