TO WHOM IT MAY CONCERN

I wish to register my comments re the new housing development planned for Washwell Fields as follows:-

Painswick as a whole **CANNOT** possibly accommodate or tolerate anymore traffic. The parking situation is quite ridiculous with most homes owning at least two vehicles, the road structure not built to take such volumes of traffic in such narrow roadways/streets and the very character of this lovely village will be further ruined should these properties be erected.

Those responsible for these plans should look into the amenities that will be needed and what pressure will be put upon our local school and doctors' surgery. Do we really want to wait even longer to be given an appointment to see a GP? Will locally born and bred children be afforded a school place in Painswick if the population is increased with outsiders moving to the village?

As a long term resident of Vicarage Street where traffic chaos already reigns I feel **strongly** that this development should **NOT** be allowed to proceed on what is currently a beautiful green field. Has consideration been made for the local flora and fauna that exists in these fields? Have important environmental issues such as fuel pollution been discussed?

Let's keep Painswick as a special rural village that we are proud to welcome tourists to and not one where both vehicles and pedestrians are struggling to manoeuvre due to bad planning and lack of foresight by Stroud District Council.
