DearSirs,

I am writing to you regarding the plans proposed for the area around Wisloe, this seems to me ,to be completely irresponsible of Stroud council to consider this area.

Reasons

The eventual quantity covering a very wet area, can only cause flooding ,as I doubt if the houses will have much gardens, ie, paved areas, tarmac,so the standing water will not be able to drain away. Far to near the motorway, regarding noise and fuel pollution.

If you have ever walked this area you would be aware of the wildlife that would definitely disappear, ie barn owls , small mammals, deer, bats are always flying for insects , tawny owls etc etc etc.

Before you can think along the lines of any houses, surely some infilstructure ,most definitely would need to be put into place, schools, doctors,shops,walking areas,usually this is the last thing to happen , as until you sell the houses,you would not have the money to put this into place.The amount of extra traffic this will generate on to the A38,doesn't bear thinking about.

I maybe wrong but has this area been earmarked for the simple reason that the Cooks Trust offered the land to Stroud district council? If so,this has not been thought out at all, simply going ahead for an easy option. I hope you will think carefully, and I would certainly like an acknowledgment of my email. As I wrote before regarding the car park at Shepherds Patch, but not sure whether it was actually read.
