Dear Stroud District Council,

I would like to register my protest; I do NOT support the local plan for building and development at Berkeley and Sharpness for the following reasons:

Too many houses proposed for the area, it will irrevocably change the dynamics of this peaceful rural area. It will reduce the quality of our lives here.

There will be light pollution. There is the possibility of too much light affecting migrating birds at Slimbridge Wildfowl trust. It would also affect other wildlife, owls for example that need it to be dark to hunt.

There will be a substantial increase in traffic, no matter what public transport initiatives there are, people in rural areas need cars. This will mean AT LEAST 10,000 more cars on the roads.

That brings me to infrastructure, the roads are TERRIBLE now, how much worse will they get with increased traffic? There is a B road in and a B Road out. They will NOT cope with the volume of traffic. Public transport, even if available is expensive and inconvenient. Cycling is no good for the old and infirm or for those that don't have showering facilities at work, or indeed work too far away. Rail links, even if put into place cannot have a line into Bristol according to Network rail.

All secondary schools around here are full.

Flooding is a big concern. The fields around here flood every winter. Cover them in tarmac and concrete and the problem will move to other areas. Possibly flooding dwellings that have never flooded before. Flooding will also affect the roads.

There are not enough doctors and dentist surgeries here to support a large influx of people.

More people bring more rubbish, more pollution, more traffic and more crime.

Cyclists, horse-riders and pedestrians (most of the B roads have no pavements) will be in danger from the increase in traffic.

This build is entirely inappropriate for this area and as a resident I would like to voice my protest. I am aware it's probably a 'done deal' and our voices won't be taken into consideration and the council will vote it in, because the councillors who will vote on it mostly live elsewhere and don't want it put in their districts instead. Also the developers have invested a lot of money in this plan, so I'm sure that negates any opinions from the residents and taxpayers who will have to live with this monstrous proposal that will impact negatively on our lives.

Please acknowledge your receipt of this email and make sure this reaches the planning officer in charge.

Yours in anger
