I am writing to object to this proposal

This council has proposed this development with no consideration for the people in the immediate areas views!  
Why did you not send out your proposals before you engaged developers? And waste a large amount of money on what would be the inevitable objection to this project.

How can a rural area cope with such a massive construction project of this size!!!!  
I see developments in neighbouring communities like thornbury, wotton under edge, Charfield Dursley, Falfield and even the current development in berkeley of which they are having trouble selling!!!  
There is enough housing going on,,,we dont need 5,000 more within our beloved countryside

This will ruin the area beyond belief. I can guarantee there will be flooding as there is now with the displacement of current fields turned into a mass of concrete and who will foot the bill!!!!  
This is beautiful countryside with a heart of a community which will be ruined by some developers greed without the thought of local people

I urge you to think again about the stroud and district local plan,,,,, surely small developments in local communities is the way forward, no need for massive upheaval, no need for major harm to the local community and countryside make it for local people who can then afford to live in them. You know people wont object to that, it is very simple
