Please see email below which unfortunately was sent to the wrong email address. We realise that this is outside the consultation period, but would be grateful if it could still be considered.

Many thanks

We write in support of the environmental policies supporting the carbon neutral 2030 commitment. Specifically we support policies encouraging reduced car use by the provision of traffic free cycle and pedestrian paths, such as the Charfield, Kingswood and Wotton under Edge Greenway. Also, we support the promotion of sites within the district for the potential siting of renewable energy schemes (wind and solar), as mapped in appendix B. We also support the policies promoting district heating, where viable.

Regards
