

FOR THE ATTENTION OF THE PLANNING OFFICER, R.D.C.

8/12/2019

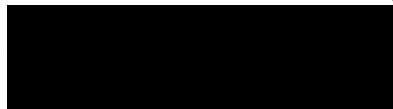

CONCERNING PS29
DURSLEY

Dear Sir/Madam,

This letter is regarding further development, as there is very little land available. All the recent houses built have been on infill small sites, and some modern developments. With any house building there are issues of facilities as you are aware, Doctors, schools, increase in traffic, land drainage, the pollution from traffic cannot be ignored in the town centre. Building land is available in Cam the better choice for environment reasons, convenient for the A38, Train services, etc, etc; only the demolition of housing stock typically "Cambridge house" "empty bungalows" for example, could provide a worthwhile site for development.

In closing may I say "green spaces" are vital. The environment, the prestige of a town is often the view the impression, this is a place with some pride and attraction as befits a town with Cotswold views.

Yours sincerely

STROUD TOWN COUNCIL
