Local Plan Review
The Planning Strategy Team
Stroud District Council
Ebley Mill
Stroud

Regarding the Proposed Development at Wisloe Green Cambridge.

I object to the development because, I am a senior citizen who has resided in the quiet village of Cambridge for the last 34 years, and have serious concerns that if the erection of a large amount of houses are built on the proposed site of Wisloe Green, my quality of life will suffer for the following reasons.

The noise and pollution from an increased amount of traffic that will inevitably happen with such a large number of people living in Wisloe Green will no doubt have an effect on not only my health, but also other residents of the village.

There is also the fact that the current medical services which are in Dursley will not be able to cope with an increase in their patient lists, it is already difficult to get Doctors appointments, and there is no mention of a new surgery or other local amenities in the proposed plan. Surely this would cause undue hardship for lots of people.

A further concern is the fact that a large number of houses are currently being built in Box Road Cam which is only just the other side of the M5, This matter coupled with a further estate on the proposed site would mean that not only the Village of Cambridge but also the adjacent Village of Slimbridge would lose their identities become swallowed up and end up as part of Dursley. This would be a backward step in the overall aspect of the well known Vale Of Berkeley which is renowned for its rural landscape.

Finally is there any need for such a large number of houses? There are no employment areas in the immediate district therefore, if the development takes place there will be a vast increase in commuters travelling to either Gloucester or even further to Bristol which brings its own problems for example prolonging the working day.

Yours Sincerely
