11 NOTICE OF MOTION

A motion regarding support of the Climate and Ecological Emergency Bill is proposed by Councillor Pickering and seconded by Councillor Cornell.

Humans have already caused irreversible climate change, the impacts of which are being felt in the UK and around the world. Global temperatures have increased

by 1 degree Celsius from pre-industrial levels. Atmospheric CO2 levels are above 400 parts per million (ppm) and continue to rise. This far exceeds the 350 ppm deemed to be a safe level for humanity.

Without more significant and sustained action, the world is set to exceed the Paris Agreement's 1.5°C limit between 2030 and 2040. Therefore the current UK target of net zero by 2050 is not satisfactory. It is too little too late.

The increase in harm caused by a rise of 2°C rather than 1.5°C is significant. This is described by the Intergovernmental Panel on Climate Change's Special Report on Global Warming of 1.5°C published in October 2018. According to the IPCC, limiting heating to 1.5°C may still be possible with ambitious action from national and sub-national authorities, civil society, the private sector and local communities. The costs of failing to address this crisis will far outstrip the investments required to prevent it. Investing now will bring many benefits in the form of good jobs, breathable cities and thriving communities.

Council notes that

1. This council has declared a climate and ecological emergency;
- ii. There is a Bill before Parliament—the Climate and Ecological Emergency Bill (published as the “Climate and Ecology Bill”)—according to which the Government must develop an emergency strategy that:
 1. requires that the UK plays its fair and proper role in reducing greenhouse gas emissions consistent with limiting global temperature increase to 1.5 degrees C above pre-industrial temperatures;
 2. ensures that all the UK's consumption emissions are accounted for;
 3. includes emissions from aviation and shipping;
 4. protects and restores biodiverse habitats along overseas supply chains;
 5. restores and regenerates the UK's depleted soils, wildlife habitats and species populations to healthy and robust states, maximising their capacity to absorb CO2 and their resistance to climate heating;
 6. sets up an independent Citizens' Assembly, representative of the UK's population, to engage with Parliament and Government and help develop the emergency strategy.

Council therefore resolves to:

1. Support the Climate and Ecological Emergency Bill
2. Inform the local media of this decision;
3. Write to local MPs, asking them to support or thanking them for supporting the Bill; and Write to the [CEE Bill Alliance](#), the organisers of the campaign for the Bill, expressing its support (campaign@ceebill.uk).
