

CIL Indexation Guidance

Note - 2024

Schedule 1 of the CIL Regulations (as amended) requires collecting authorities to apply an index of inflation to each relevant CIL rate to keep the levy responsive to market conditions. From the 1st January 2020, the index is the RICS Building Index for CIL published by the Royal Institution of Chartered Surveyors. The annual index figure will be published on or around the 1st November each year and will apply from the 1st January of the following year.

This was previously applied per financial year but from the 1st January 2020 will be per calendar year.

This document provides the indexed figures for each year, showing what the CIL rate will be for applications permitted in each timeframe.
