

**FOR RECYCLING MORE AND REDUCING WASTE**

The new food waste recycling service hasn't been in place for long and you've already made a huge difference.

**TONNES**  
OF RUBBISH TO LANDFILL  
HAS HALVED

**AT HOME** Each week you're putting out half the amount of rubbish you used to and for the first time ever are now recycling more than you waste.

**THIS MEANS...**

Each month, you're now recycling 500 tonnes of food waste...

...which is turned into enough gas to heat nearly 200 homes and produces 450 tonnes of fertiliser.
