

# Annual Resident Satisfaction Survey 2025

## The main concerns for future financial security included:

- Paying monthly bills/inflation
- Energy bills
- Cost of housing
- Food costs
- Security in retirement

## Three things that respondents felt needed most improving in their local area...

 The green arrow indicates the result has increased since 2024 results

We can be 95% confident that the survey results provide a margin of error\* of +/-4.4%

\* A margin of error of +/-4.4% means we can be 95% sure that if the entire population of the Stroud district been surveyed, the result would not differ more or less than 4.4% from the survey finding.  
Source: 347 telephone & 160 face-to-face interviews with residents aged 18+ conducted
