Brief Description: Installation of solar panels to help reduce energy costs for the running of the centre

Date Project Completed: October 2024

Has the project been successful?

The installation was completed well within the time frame we had in mind and completely on budget. It's been great as a committee to watch our usage and see the savings already being made.

With these savings in mind, as a committee, we have been able to freeze our hire cost at this present time. Our aim is to still be affordable to all the Community around us and hopefully encourage more users.

Amount of CIL spent on the project: £ 24,320.00

Total project costs: £ 24,320.00

Summary of any match funding secured: £ none
