

Social Value Supplier Toolkit

SV Aim	SV No	Measures	Definition	Guidance / Evidence	Intended outcomes
Economic Outcome	1 a & b	Demonstrate support for Community Wealth Building in the form of Social Value Community Exchange in the form of hours support or direct financial support or in the form of equipment	Investment can either be given financially to the Stroudfunding platform which funds community organisations benefitting people living in Stroud district or as value of equipment/materials donated to fulfil requests from local community organisations or in hours to support community organisations. Or through Go Volunteer Glos - Go Volunteer Glos for organisations in the Stroud district boundary	Amount of money directly invested in Stroudfunding projects or to other community based organisations Value in £ of the equipment/materials donated to fulfil requests from community organisations. Volunteering hours	Positive impact on community projects based in Stroud.
	2	No of weeks of apprenticeships as part of the contract	This Measure applies to direct employees only and does not include staff upskilling. Time spent as part of apprenticeships created specifically for the contract or that are made use of on contract can be counted, for those weeks during which apprentices work primarily on contract. Only apprenticeships supported to completion should be counted, even when that completion will occur after the end of the contract.	Summarise your strategy for providing the target number of apprenticeship weeks on this contract, including details of how you will support completion of the apprenticeships. If possible, provide details the type and the level of the apprenticeships to be achieved as well as the resulting qualifications. If an apprenticeship has been part financed through the apprenticeship levy attribution has to be applied, to account for reduced costs of provision for the apprenticeship provider.	To support local employment initiatives, and the local economy.
