

Local validation checklist – Full Planning Permission and Advertisement Consent

This checklist has been created in order to clarify what information Stroud District Council requires to be submitted with your planning application. Any application submitted that does not provide the necessary information will not be validated and will not be progressed. If an invalid application is submitted, Officers will set out what further information is required in writing. Any application that remains invalid after 21 days will be returned and an administration fee charged.

Applications can be made via the Planning Portal website www.planningportal.gov.uk
Alternatively, please submit one copy of each document and plan and send to planning@stroud.gov.uk

For further information about the level of detail required for plans, please view the Council's <u>Drawing Standards document</u>.

If after viewing the Drawing Standards you are still unsure about what needs to be supplied with your planning application, please contact us on 01453 766321 or by emailing planning@stroud.gov.uk

Please note: Stroud District Council reserves the right to request further information not listed below that is reasonably required for the determination of your planning application.

National Requirement List	Tick when provided
Completed application form	provided
(including ownership certificate, either A, B, C or D)	
Correct fee (where necessary)	
Planning portal fee calculator	
https://lapp.planningportal.co.uk/FeeCalculator/Standalone?region	
Stroud District Council website	
https://ecab.planningportal.co.uk/uploads/english application fees.pdf	
Design and Access Statement	
Required for development:	
that is major development	
 of one or more dwelling in a Conservation Area 	
 of 100sqm new floor space to be created in a Conservation Area 	
 for applications for listed building consent 	
Site location plan (at a scale of 1:1000, 1:1250 or 1:2500)	
Application site outlined in red	
All other land in the applicant's ownership outlined in blue	
Plan must detail names of surrounding roads and be large enough to easily locate the site	
Block Plan (at a scale of 1:200 or 1:500)	
(Existing and proposed)	
Block plan must show:	
 The proposed development in relation to the site boundaries and adjacent buildings. 	
 Any existing or proposed structures on the site. 	
 Any existing or proposed trees or public rights of way affected by the development. 	
Any new boundary treatments.	
Proposed parking areas.	
 Location of proposed signage. 	
Surface water drainage.	
Elevations (at a scale of 1:100 or 1:50)	

(Existing and proposed)	
Proposed elevations must show the proposed development in relation to any adjacent	
buildings.	
Proposed elevations must be provided for each elevation and be clearly labelled.	
Drawings required to detail proposed advertisement; position, size, materials, colours,	
height above ground, projection and illumination details.	
Floor plans (at a scale of 1:100 or 1:50)	
(Existing and proposed)	
Should clearly indicate any walls being demolished.	
Roof plans (at a scale of 1:100 or 1:50)	
(Existing and proposed)	
Site sections (at a scale of 1:50 or 1:100 through buildings or 1:200 or 1:500 through land)	
Site sections should clearly indicate any changes in land levels, finished floor levels and the	
relationship to any neighbouring development. Gradients and retaining structures must be	
clearly detailed including any information relating to drainage.	
Finished Floor and Site Levels (at a scale of 1:200 or 1:500) with a fixed datum point	

Finished Floor and Site Levels (at a scale of 1:200 or 1:500) with a fixed datum point	
Local Requirement List – in alphabetical order (please note not all requirements may be	Tick when
applicable)	provided
Affordable Housing Statement	
Required where a proposal should include the provision of affordable housing under Stroud	
District Local Plan (SDLP) Policy CP9:	
Number, mix and tenure of units	
Gross internal floor area per unit in m ²	
Viability appraisal must be provided if less affordable units than required are	
proposed. District Valuer will undertake an independent assessment of the viability	
assessment at the applicants' expense.	
Affordable Housing will be secured by way of a S106 Legal Agreement, further	
information can be found at https://www.stroud.gov.uk/media/241797/planning-	
<u>obligations-spd-final.pdf</u>	
Agricultural/Forestry Dwelling Justification	
In accordance with SDLP Policy CP15, such a statement must include:	
Functional and financial justification	
Demonstration of why development is essential to enhance or support sustainable	
farming or forestry enterprise	
Air Quality Assessment	
Archaeological Assessment	
For developments that includes new buildings or ground disturbance on or adjoining a	
heritage asset of archaeological importance.	
Further details and guidance can be found on the Gloucestershire County Council website,	
available at https://www.gloucestershire.gov.uk/planning-and-	
environment/archaeology/archaeological-planning-advice/	
Biodiversity Survey	
You should submit a biodiversity survey when the development proposal (including any off-	
site works) will affect:	
Designated sites	
Priority Habitats	
Other biodiversity features	
Species protected by law	
Priority Species	
Daylight/Sunlight Assessment	
Required to show the impact of the proposed development on a neighbouring property and	
garden if the proposal is greater than one storey in height or a large single storey extension.	
Environmental Statement	

	WWW.Stroug.gov.ux		
Require	d for any proposal where there will be a significant environmental impact and where		
the pro	posal falls within Schedule 1 or Schedule 2 of the relevant regulations. A formal		
screenir	ng opinion on the necessity for an EIA can be requested from the Council.		
Flood R	isk Assessment		
Require	d if the proposed site is located in flood zones 2 or 3. See Environment Agency		
-	for further information, available at https://flood-map-for-planning.service.gov.uk/		
	e Statement		
_	d if the proposed development may affect a designated or undesignated heritage		
asset ar			
•	including archaeologically sensitive areas,		
	Ancient monuments,		
	The building is Listed or may affect the setting of a Listed Building,		
•	Registered Parks and Gardens,		
	Development in or affecting the character of a Conservation Area		
For furt	her information see the Historic England website, available at		
	historicengland.org.uk/services-skills/our-planning-services/charter/working-with-

	Assassment/Sequential Assassment		
impact	Assessment/Sequential Assessment May be required for proposed commercial uses outside of identified commercial		
•	May be required for proposed commercial uses outside of identified commercial centres and extensions to existing commercial sites.		
•	Retail impact assessment (RIA) in compliance with SDLP Policy EI9. RIA required according to level of retail floor space required. See Policy for further information.		
Land Ca	- · · · · · · · · · · · · · · · · · · ·		
	ntamination Assessment		
	d where sites are known or suspected to be contaminated; a report is required to		
	necessary investigations and remediation.		
	pe Visual Impact Assessment		
-	d for proposals that will have an impact on the landscape. Must be provided for		
	rated within or affecting the Cotswold Area of Outstanding Natural Beauty.		
Landsca	pe Scheme		
•	Required for any new residential or commercial development.		
•	Must show hard and soft boundary treatments.		
•	Must show position of trees and vegetation to be retained.		
•	Must clearly show any trees or vegetation to be removed.		
•	Must detail any new planting including a 5-year schedule of maintenance.		
	Assessment		
For any	development proposing floodlighting or significant external lighting.		
•	Must include technical details or proposed lighting and hours of operation.		
•	Must include a layout plan showing beam orientation.		
Noise In	npact Assessment		
•	Required for impacts of noise upon proposed developments (such as impact of		
	trunk road on a proposed housing development)		
•	Required for impact of noise from proposed developments (such as impact arising		
	from a new commercial/industrial development)		
•	Also required for proposals including ventilation or extraction which must also		
	include exact details of proposed ventilation/extraction, acoustic noise		
	characteristics and odour abatement measures.		
Plannin	Planning Obligations and Community Infrastructure Levy (CIL)		
•	Both Form 1 (Additional Information) and Form 2 (Assumption of Liability) must		
	be submitted with the planning application in order to establish CIL liability.		
	Please note this replaces previous government CIL forms in accordance with		
	changes made to the CIL Regulations (September 2019).		
Information on CIL and CIL forms are available at:			
	https://www.stroud.gov.uk/environment/planning-and-building-control/community-		
infrastr	<u>ucture-levy-cil</u> .		

Some proposals may give rise to the necessity for developer contributions to mitigate any adverse impacts that need to be secured by way of a S106 Legal Agreement. More details can be found at:

https://www.stroud.gov.uk/media/241797/planning-obligations-spd-final.pdf

Information required in order to draft a Legal Agreement includes:

- Draft Heads of Terms or Deed of Variation
- Costs undertaking
- Full Solicitor contact details
- Proof of title and plan

Site Waste Management Plan

Required for any major development proposals:

- 10+ dwellings or residential development on sites over 0.5ha
- Non-residential development where floor area exceeds 1000 sqm or site area is 1 hectare or more.

Statement of Community Involvement

Required for:

- Developments of 10 or more dwellings.
- Retail development of 1000sqm or more.
- Other developments proposing in excess of 1000sqm and likely to generate significant public interest.
- Waste management facilities.

Structural Survey

A survey of the building, including information on efforts to retain the structure in a sustainable condition.

Surface Water Drainage Strategy

Required for all major developments (10 or more dwellings or 1000sqm or more)

Sustainability Checklist

Sustainability construction and design checklists can be found on the Councils website at https://www.stroud.gov.uk/environment/planning-and-building-control/planning-strategy/supplementary-guidance

Transport Assessment

Required for proposals likely to have significant highway implications.

Must include:

- Demonstrate accessibility to the site by all modes of transport.
- Show likely modal split of journeys to and from the site.
- Detail measures to improve access to the site by sustainable methods.
- Include all existing/proposed movements to and from the site.
- Detail parking and manoeuvring areas on a plan.

Travel Plan

Required for all proposals likely to have significant transport implications.

Must include:

- An outline of how the transport implications will be managed in order to minimise impacts.
- A Strategy for plan implementation and co-ordination.

Tree Survey

Required for any development (including the provision of hard surfaces, site construction compound areas, utilities, excavations or changes in ground levels) that would

- be within 15m of any tree protected by a Tree Preservation Order or in a Conservation Area
- be within 10m of any other tree that is 5m or over in height or has a trunk diameter of 250mm or more

Tree surveys must be written in accordance with the guidance in British Standard 5837 Trees in relation to design, demolition and construction – Recommendations.

Other Plans required:

- Detailed drawings of key architectural features
- Streetscene
