--

4. Are there external considerations? (Legislation / government directive, etc)

5. Who is intended to benefit from it and in what way?

The whole population of the district will be affected. The Council Plan is an overarching document which is designed to create positive impacts for people who live, work and visit the district. It should not have an adverse impact on any groups or individuals as its purpose is to make the Council's practices and services more effective, fair and accessible for all.

The Plan aims to create inclusive communities and foster good community relations. Key initiatives are involving and engaging communities and supporting them to be involved in decision making.

6. What outcomes are expected?

The Council Plan includes a range of initiatives and different projects which are designed to provide positive outcomes for the wider community.

The ambitions of the Plan are aimed at creating positive outcomes for advancing opportunity for disadvantaged groups/communities and fostering good relations with people who do not share a protected characteristic.

Further consultation and individual Equality Impact Assessments for the range of initiatives will take place as part of the ongoing development and completion of the specific actions and projects contained within the plan.

7. What evidence has been used for this assessment?: (eg Research, previous consultations, Inform (MAIDEN); Google assessments carried out by other Authorities)

- Responses to the public consultation held between October and December 2024 (See Appendix C of the Council Plan report).
- National statistics, mostly using the Office of National Statistics Census (2021) to pull out key statistics that related to the priorities, aims and objectives of the Council Plan. These included:
 - Population (121,100)
 - Place of birth
 - Population density
 - Age
 - Sex
 - Race and Ethnicity
 - Religion
 - Number of disabled people
 - UK armed forces veteran indicator
 - Economic activity status
 - Highest level of qualification
 - Method of travelling to the workplace
 - Number of households (52,400)
 - Household deprivation
- Local statistics and research were used as additional evidence for particular areas such as housing, local businesses and the local community. This was undertaken with support from service areas across the Council and included:
 - Number of businesses (4,344 registered with the council)
 - Number of community hubs (14)
 - Number of council properties (4,955)
 - Number of shared ownership properties (43)

- Number of B-Corp businesses in the Stroud district (14)

Understanding the demographics of the Stroud district has been essential to the development of the Council Plan. Research has begun to identify some of the specific needs of the district and therefore what the Council Plan should seek to address, in particular in regard to support for those with protected characteristics.

8. Has any consultation been carried out? See list of possible consultees

Significant consultation has been undertaken in the development of the Council Plan, including through workshops with Councillors and officers, Town and Parish Councils, Stroud District Youth Council, and the Local Strategic Partnership for the district.

A public consultation was held between the end of October and beginning of December 2024, the consultation included an online and paper survey, and the feedback received can be found appended to the Council Plan report.
